MEMORANDUM FOR: Chief, Regulations Control Branch, SSS

Bruce:

25X1 We believe that you have in the typewriter a revision
of [] Employee Conduct. We would suggest that the new document
25X1 should ideally incorporate participating in "public petitions" in any listing
of examples of "inappropriate conduct". At such time as [] Conduct
and Discipline, and [] Limitations on Outside Activities, are revised
in whole or in part, we should consider including some mention of public
petitions.

The attached papers are among our favorite
souvenirs and we are willing to part with them only because you fellows
are so nice. (The Notice business obviously was overtaken by time and
our unsuccessful efforts to find a simple way to put petitions into our
formal paper work.)
